

ART OF NATURE

COLLECTION

INTRODUCTION

We're pleased to share with you a new collection, this time inspired by nature. Mother Nature is a powerful and eternal force, making each season a breathtaking spectacle. Our team of designers, together with our skilled craftsmen, have infused the beauty, diversity and resilience of nature into unique lighting designs.

Designer: Veronika Šindelářová

Snowflower

This lighting fixture represents purity and the birth of life, locked in a never-ending cycle. The inspiration for this design was a spring flower that comes to life at the end of winter, symbolising the approach of spring. Snowflower is constructed out of overlapping glass petals. The centre of the light, which represents the heart of the flower, features crystal trimmings and chains.

Indian Aesthetics

This lighting fixture is inspired by a cascade of water, which we encounter in nature or architecture in the form of fountains and waterfalls. Fan-shaped layered chains are reminiscent of delicate cobwebs glittering in the light of an Indian summer.

Calicem

Calicem, like Indian Aestas, is inspired by a cascade of water. Fan-shaped layered chains are reminiscent of delicate cobwebs glittering in the light of an Indian summer. The light source is hidden at the core of the lighting fixture, behind chains in the golden colours of autumn leaves.

Designer: Jana Chvojková

Papillon

This lighting fixture is inspired by a swarm of butterflies flitting around a flowing waterfall. It comprises a glass dome, chains of trimmings and hand-shaped glass butterflies.

Lilien

Lilien brings the purity and innocence of the lily into your interior. The petals are made of sandblasted glass in white or pink.

Rosée

This unique lighting fixture features a net made of beads cast over different glass shapes. The combinations of colours, shapes and design of the beaded nets are endless.

Designer: Monika Šilhánová

Fleur

A summer meadow carpeted with wildflowers was the inspiration for the Fleur collection. The main theme is one of softness and airiness. This was achieved by using a metal structure decorated with coloured glass elements representing the delicate petals of the flowers. These lights look exceptional in groups, bringing a hint of sunny days and flower meadows into your home.

Designer: Jiří Vencel

Quartz

These lighting fixtures are inspired by mountain quartz and make an elegant addition to any modern interior. The ceiling light and wall light share the same design, consisting of optical glass rods of the highest quality, cut by hand and carefully positioned to imitate how quartz crystals form in nature.
